

Customer Satisfaction Summary

FY 2023

St. Clair County Community Mental Health Authority

3111 Electric Ave., Port Huron, MI

This report is the annual St. Clair County Community Mental Health Authority (SCCCMHA) summary regarding customer satisfaction for Fiscal Year 2023. It represents SCCCMHA’s effort to implement the customer satisfaction process as noted in the FY23 “Quality Improvement Plan.”

Method

The FY23 Customer Satisfaction Survey was administered July 31, 2023 - September 1, 2023. The survey method included mail out, in person and phone calls. The survey selection included all individuals opened to services on July 15, 2023. SCCCMHA’s survey incorporated all the questions from the Region 10 (PIHP) required Customer Satisfaction Survey and the CCBHC required MDHHS MHSIP & YSS Customer Survey.

All required reporting data and survey results for both Region 10 and the CCBHC were timely submitted. Region 10 requiring Medicaid only individuals to be submitted, of which there needed to be a minimum of 100 individuals receiving Home and Community Based Services (HCBS) and the identification of anyone open to CCBHC.

All the CCBHC required data fields along with the survey results were also submitted to SCCCMHA’s designated staff. The CCBHC final data/survey report will be completed and submitted.

SCCCMHA included all individuals open to services on July 15, 2023 regardless of their funding source (i.e. Medicaid, private insurance, general fund etc.). All individuals or the parent/guardian were mailed a survey, which included a self-addressed stamped envelope. Two weeks following the mail out, individuals who had not yet completed their survey were provided one in person (if they had a scheduled appointment at the Electric Ave. site) or were called and requested to complete the survey (as time allotted).

The overall response rate for the SCCCMHA FY23 Customer Satisfaction was 18% an increase from FY22’s 16%. Below is the response rate history for the past four years.

Response Rate and Overall Satisfaction

FY	Response Rate	Overall Satisfaction	Method	#’s
FY23	18%	95%	ALL MAIL, Follow up with In Person & Phone	3990
FY22	16%	97%	ALL MAIL	1263
FY21	17%	94%	ALL MAIL	2422
FY20	23%	95%	ALL MAIL	1779

The Questions (Child & Adult)

There were two surveys one for children and one for adults. The Child survey consisted of 31 questions, 26 straightforward questions and five open ended questions. The adult survey included 30 straightforward questions and five open ended questions. The possible responses for the straight forward questions included “Strongly Agree, Somewhat Agree, Somewhat Disagree, Strongly Disagree and Not Applicable.

All surveys that SCCCMHA Quality Improvement staff noted as requesting a follow-up, based on the request of the individual, parent/guardian of the individual, or comments noted on the survey, were forwarded to the SCCCMHA’s Program Director. The follow up phone call(s) by the Program Director was documented on the hardcopy survey as well as entered into the Customer Satisfaction Survey spreadsheet.

The below tables (Child & Adult) details the response to each questions:

CHILD Customer Satisfaction Survey		Strongly Agree/ Somewhat Agree	Strongly Disagree/ Somewhat Disagree	N/A
1	Overall, I am satisfied with the services my child received.	106/112 (95%)	6/112 (5%)	0/112 (0%)
2	The people helping my child stuck with us no matter what.	102/112 (91%)	4/112 (4%)	6/112 (5%)
3	I felt my child had someone to communicate with when they were troubled.	101/112 (90%)	3/112 (3%)	8/112 (7%)
4	The services my child and/or family received were right for us.	106/112 (95%)	5/112 (4%)	1/112 (1%)
5	My family got as much help as we needed for my child.	103/112 (92%)	8/112 (7%)	1/112 (1%)

Demographics

The following table indicates the age groups of respondents. Individuals surveyed were grouped by “0-17”, “18 and older.” Of the 703 completed surveys, the age group breakouts of the respondents are as follows:

Age	Percentage	Number
0-17	16%	115 of 703
18 and older	84%	588 of 703

The following table indicates the population percentages of the respondents. Individuals surveyed were grouped by the following populations: **I/DDA** (Adults with Intellectual Developmental Disability), **I/DDC** (Children with Intellectual Developmental Disability), **MIA** (Adults with a Mental Illness), and **MIC** (Children with a Serious Emotional Disorder).

Population	Percentage	Number
I/DDA	32%	223 of 703
I/DDC	6%	42 of 703
MIA	52%	365 of 703
MIC	10%	73 of 703

Results

Using the responses from the following question, taken from the child and the adult survey **“Overall, I am satisfied with the services I have received”**, the cumulative overall rate of customer satisfaction was 95%.

- #1 “Overall, I am satisfied with the services I have received.” Child 95% (106 of 112)
- #30 “Overall, I am satisfied with the services I have received.” Adult 95% (541 of 567)

A sample of the responses received from two of the five open-ended questions are as follows:

Question #27 (Child) & #31 (Adult)

“Regarding your experience, has there been anything that has been particularly beneficial for you or your child.”

- CHILD - “My child talks to us more and is doing more for herself”
- CHILD - “We have learned new ways to communicate with each other”
- CHILD - “Knowing that she’s not alone and there are people around that care”
- ADULT - “My therapist has taught me a lot of coping mechanisms”
- ADULT - “Being able to hear someone else’s perspective without being judged”
- ADULT - “It’s all been beneficial”

Question #28 (Child) & 32 (Adult)

“Has there been anything about your (your child’s) service experience that you would want to see improved.”

- CHILD - “Communication with parents, progress reports, scheduling, would like to see goal chart.”
- CHILD - “Respite care for parents.”
- CHILD - “Wait time for OT services.”
- ADULT - “Simplifying the prescription renewal process. Everything else is excellent.”
- ADULT - “Less confusion and more clarity on transferring meds and being evaluated. Same with the therapy.”

- ADULT – “More access to transportation.”

Discussion

Preliminary survey findings and responses to each question were reviewed and analyzed by members of the St. Clair County Advisory Council, which includes persons (or their family members) who receive services from public mental health in St. Clair County. The survey findings were discussed to gain suggestions as well as facilitate a question-and-answer forum. The group also reviewed statistics in relation to who completed the surveys, the method of administration and the response rate for St. Clair County CMH.

Fiscal Year 2023’s “Overall Satisfaction” cumulative rate was 95%. It should be noted that this satisfaction survey is only one of many tools SCCCMHA uses to evaluate an individual’s satisfaction with services. Each individual who receives services is asked about satisfaction with the services received on an ongoing basis (annually and at periodic reviews). They also have an opportunity, via the Suggestion Box Survey, to submit comments anytime throughout the year.

The overall response rate for FY23 was 18% compared to FY22’s 16%. We will continue to evaluate the survey administration process for future surveys, as we would like to increase the response rate.

Recommendations

St. Clair County CMH and their staff should receive recognition for the 95% overall customer satisfaction. These positive results reflect that the majority of people served by SCCCMHA feel that the services they receive meet their individualized needs.

As part of its continuous quality improvement efforts, the SCCCMHA Quality Improvement office will continue to evaluate the methodologies and tools used for survey administration, in an effort to increase survey participation and bring efficiencies to administration of the survey. Careful analysis of survey responses and comments are considered for upcoming survey opportunities.
