III. PROGRAM PRESENTATION – Employment, In-Shape, Galley & MRS

Ms. Rice joined today's board meeting to present on the programs she supervises', Employment, In-Shape, Galley and MRS.

Individual Placement and Support (IPS) – IPS is an evidence base practice that provides supported employment for those with serous and persistent mental illness and/or substance use disorders.

Key Principles of IPS:

- Competitive Employment
- Systematic Job Development
- Rapid Job search
- Integrated Services
- Benefits Planning
- Zero Exclusion
- Time-Unlimited Support

Opportunities for Success

- Based on the Discovery Model and Customized Employment Model, both created for persons with intellectual/developmental disabilities
- Discovery is a process between 2 and 8 weeks (in some cases longer) where a person, their family/support system and case holder participate in a journey to create 3 themes for the Employment Specialist and person to explore to find the right fit for employment
- According to ODEP “customized employment is a process for achieving competitive integrated employment or self-employment through a relationship between employee and employer that is personalized to meet the needs of both.”

Benefits Coaching/Counseling

- Benefits coaching is performed at CMH for any person who has a benefit and wants to work. We have two certified Benefit-to-Work coaches.
- Ms. Rice also holds Work Incentive Practitioner (WIP-C) credentials from Cornell University which allows a more intensive work incentive planning and support a person if difficulties arise with the SSA.
- This team reviews work incentives including the Trial Work Period, Substantial Gainful Activity, Medicaid, Medicare, SSI 1619B and support a person with budgeting and reporting wages to the SSA.
- Growing the benefits team will support more SSA and other benefits education at SCCCMH.

Michigan Rehabilitation Services

- The team provides individualized services that assist potential employees with differing abilities to prepare for, pursue and retain careers. We partner with business in employee development, business consulting and corporate relations.
- The Mission: “Develop customized workforce solutions for businesses and individuals with disabilities.”
- The Vision: “A diverse and inclusive workforce that unites businesses and individuals with disabilities toward a common good.”

In-Shape

- A health development initiative for individuals experiencing mental illness.
- The goals of the initiative are to improve physical health and quality of life, reduce the risk of preventable diseases, and enhance the life expectancy of individuals experiencing serious mental illnesses.

The Galley

- Home-style Cooking classes have been developed with Mr. Mike Moretz at the Chef’s table and Ms. Lori Gauthier supporting the program’s needs.
- Enrollees come to the class two days a week to learn how to cook healthy low-cost meals.
- Each class has four to six students. This allows each person to participate with making the meal and learning proper food handling and safety.

This option would require minimal changes to the catch basin that is currently on the property. This solution was estimated to be roughly \$350,000. Approval is needed so that the bidding process can begin.

IX. INFORMATIONAL ITEMS

1. Funding Bucket Report

Ms. Farr presented the funding bucket report for December 2022. There are no current concerns.

Ms. Bligh stated that board members who had attended conferences in 2022 had received incorrect W2s. Ms. Farr stated that the reason for this was a training issue related to board travel that has been resolved, and finance is working with ADP to have the new W2's issued.

B. Administrative Updates

1. Board Policies for Review

Ms. Pingitore presented the board policies for review. Board members should send any feedback they have on these policies to Ms. Wells by February 24, 2023.

C. Data / Contract Management

Ms. Measel-Morris shared that the recent CARF visit went well. The virtual option for this visit was a little rocky. In the future, if in person is an option, we will elect that route.

D. Program Operations Updates

1. Employee of the Month & Team of the Month

Ms. Gallagher presented the Employee and Team of the month for November.

Employee of the Month:

Caring, compassionate, and heart of gold are just a few phrases used to describe Deb Kokoszka. Several individuals Deb has supported recently spoke up about how she has helped them in their recovery journeys.

Deb has been instrumental in helping the individuals on their recovery journey. She is also someone who exemplifies respectful treatment of others and continuously treats everyone she meets with dignity.

Apart of the individuals she works with, Deb is also an excellent coworker. She regularly takes the time to provide positive feedback to others, she is a great team player, and understands the importance of building up a team through consistent communication and recognition. Deb's positivity is often shared with others through inspirational emails.

Deb is always willing to go the extra mile for others. A few highlights include her care and concern during COVID when she made sure those on her caseload were getting what they needed. She also started a Women's Wellness group that meets regularly. She arranges for guest speakers and solicits donations for the group to enhance their experience and provide a safe place for members to share.

For demonstrating behavior that, although not required or expected, served to enrich or enhance the life of an individual we serve and her commitment to service excellence, Deb is SCCCMH's November Employee of the Month.

Team of the Month:

Through a commitment to teamwork and desire to achieve a common goal, the CCBHC team, including Jeff Stoner, Joshua Feher, Heather Grybowski, Rosetta Lee, Christy Cesaro, Kathy Melick, Myra Obarzanek, Melissa Jones, Stacey Scott, Lisa Hubbard, Danielle Tuffin, Pat Gillard, and Tiffany Emig are the November team of the month.

During the past year, this team has worked together to ensure individuals receiving services at St. Clair County Community Mental Health that are eligible for the CCBHC demonstration funding were entered into the WSA State Database. More than 4,000 individuals were in the program by the CCBHC staff, FIPA Techs, and Data staff. The clerical team has supported these efforts by ensuring signatures were obtained for consents which allowed the process to be completed.

While ensuring individuals who are eligible for CCBHC were enrolled was an assigned job task, this group went beyond expectations to ensure goals were met and individuals benefited from this integration of care. Everyone worked together to guarantee compliance with both MDHHS and SCCCMH requirements.

For their commitment to service excellence and demonstrating ideal team work to achieve a common goal, Jeff, Joshua, Heather, Rosetta, Christy, Kathy, Myra, Melissa, Stacey, Lisa, Danielle, Pat, and Tiffany are SCCCMH's November Team of the Month.

Ms. Johnson along with some members of Leadership Team and a member of the board recently attended the CMHA Winter Conference. Ms. Johnson shared some key take aways:
